OBJECTIVE

Passionate React.js Developer with hands-on experience in building dynamic, responsive web applications using React and JavaScript. Seeking to join a forward-thinking organization where I can leverage my technical skills, creativity, and problem-solving abilities to deliver impactful user experiences. Equipped with a foundational understanding of ERP systems and a strong commitment to continuous learning.

PROFESSIONAL EXPERIENCE

Software Engineer

12/2025 – Present | Dhaka, Bangladesh

DEKKO ISHO Group 

- Software Engineer, DEKKO ISHO Group Built responsive and high-performance web applications using React.js, Prime- Dhaka React, Tailwind CSS, HTML5, CSS3, and JavaScript.
- Contributed to an EBS 365 software-based ERP project for Dekko ISHO Group, assisting in system implementation, data management, and improving enterprise-wide reporting and operational efficiency.

Front-end developer

02/2023 – 11/2025 | Dhaka, Bangladesh

Kind Digital Recharge Limited

- Built responsive and high-performance web applications using **React.js, HTML5, CSS3, and JavaScript**.
- Improved UX and load times through optimized React component structures and reusable code.
- Contributed to a **World Bank-supported project** for the **Bangladesh Meteorological Department (BMD)**, modernizing weather data accessibility and visualization.
- Collaborated with backend teams using **Spring Boot** and **PostgreSQL** for data integration.

PROJECTS

Bangladesh Meteorological Department.

- Tools: **[React.js, PostgreSQL, Spring Boot]**
- Developed and maintained a dynamic web-based weather data visualization platform for the Bangladesh Meteorological Department to support disaster management and climate monitoring through real-time data insights.
- Implemented technologies such as **React.js**, JavaScript, and PostgreSQL to enable real-time data delivery, achieving faster and more accurate meteorological reporting for all districts.

Biz360 Expo

Tools: **[React.js, MySQL, Spring Boot]**

- Developed a digital platform enabling members to create personalized web portals for expanding their online presence and business outreach.
- Implemented features using **React.js**, JavaScript, and MySQL to support product/service showcasing, global networking, and digital engagement with institutions, professionals, and customers.

King Digital Recharge LTD

[Link- <http://kingdigital.com.bd/>]

Tools: **[React.js, PostgreSQL, Spring Boot]**

- Developed and deployed responsive web applications for King Digital Recharge Ltd. (KDRL), supporting digital transformation across data systems, connectivity, and digital service platforms.
- Implemented **React.js**, JavaScript, and PostgreSQL to build scalable front-end components, achieving seamless user experiences and improved load times.

Real Estate web

Tools: [React.js, MySQL, Spring Boot]

- Built property listing UI with search, filter, and detailed view features using React.js and MySQL.

SKILLS

Programming Languages

C, JavaScript, React.js,Python

Database Systems

MySQL

ERP Knowledge:

Basic understanding of ERP workflow, data modules, and integration with front-end systems

Data Analysis

Excel analysis, Power BI

AI & Productivity Tools

- Cursor AI,
- ChatGPT,
- Claude AI,
- Google AI Studio,
- Gemini

Web Technologies

React.js, JavaScript, Next.js, TypeScript, Redux ,HTML5, CSS, Bootstrap

Specialized Area

Frontend

Core Strengths

Responsive UI design, API integration, debugging, and performance optimization

Version Control

Git, GitHub

Other Tools & Libraries

Redux, Axios, REST API,Python libraries: Matlab, Pandas, NumPy, Seaborn, Saphire (probabilistic analysis tool)

EDUCATION

Bachelor of Computer Science and Engineering

Daffodil International University

CGPA: 3.67/.00

2022 | Dhaka, Bangladesh

Higher Secondary Certificate(HSC)

Sristry college of Tangail

2016 | Tangail, Dhaka, Bangladesh

Secondary School Certificate (SSC)

Bindu Basini Govt. Boys' High School

2014 | Tangail, Dhaka, Bangladesh

Language Proficiency

- Bangla

- English
